

# CAROLINA MAMMOGRAPHY REGISTRY

**To:** Asheville Breast Center, Asheville Imaging Center, Asheville Radiology  
**From:** Bonnie C. Yankaskas, PhD *BCY*  
Principal Investigator, Carolina Mammography Registry  
**Date:** October 15, 2009  
**Re:** Participation in the Carolina Mammography Registry

---

It was brought to my attention that women receiving care at Asheville Breast Center, Asheville Imaging Center, and Asheville Radiology have expressed concerns that these facilities may share data with the Carolina Mammography Registry (CMR). We do not receive data from these radiology facilities.

Due to the geographic distribution of some facilities who were affected by the recent security breach, some women in the Asheville, NC region have received letters from CMR alerting them of the breach and potential release of their information. Their information was on the server in question because they received breast imaging services in the past from a practice that does participate in CMR. The server in question did not hold any information collected by Asheville Breast Center, Asheville Imaging Center, or Asheville Radiology.

Futher information regarding this incident is available online at [www.unc.edu/cmrr/](http://www.unc.edu/cmrr/) or by calling 1.877.434.3065.
